

At Westgold Resources Limited (**Westgold** or the **Company**) from exploration to closure, we are committed to implementing high standards of environmental management across all our sites. To achieve these goals, Westgold will:

- Develop, implement and improve environmental management systems that enable Westgold to identify and manage environmental risks and opportunities at all stages of our operations.
- Measure and continuously improve our environmental performance through setting environmental objectives, performance measures and performance targets.
- Minimise the adverse environmental impacts associated with our operations through the efficient use of natural resources such as energy and water; reduction of waste; minimisation of dust, pollution and operational GHG emissions; and the responsible management of land and biodiversity.
- Commit resources to comply with this Policy and to manage and monitor our environmental performance.
- Comply with all applicable legislation, standards, compliance obligations and codes of practice
- Understand and acknowledge the expectations of all stakeholders in our operations for diligent environmental management.
- Manage environmental risks on a site-specific basis to achieve planned environmental outcomes.
- Recognise the environmental impact from past operations and address legacy issues.
- Report our environmental performance to stakeholders in a transparent, timely and regular manner.

Peter Cook
Chairman
