WESTGOLD
RESOURCES LIMITED

ABOUT US

We are a successful Western Australian ASX Listed gold producer based in the Murchison region of the Mid-West. The team has a long running history of planning and developing the mineral resources within this region.

Our overall business has two main pillars – gold operations in the Murchison region of Western Australia and a specialized wholly owned underground mining services arm Westgold Mining Services.

With a workforce of over 1000 people, we are the dominant explorer, developer, operator and gold mining company in the Murchison region. We currently operate six mines and three processing plants with a capacity of ≈4 million tonnes per annum.

Westgold typifies the world leading mining technology, ingenuity and pioneering attitude that Australia's mining industry is renowned for by uniquely being the owner operator of its mines and projects.

Our Locations

Our Ambition

We strive to leverage our gold assets and expand our Western Australian footprint to:

- create shareholder value,
- provide opportunities for our team to grow and succeed, and
- contribute to our wider communities.
