OUR VACATION STUDENT & UNDERGRADUATE PROGRAMS

Summer Vacation Program

Kick start your mining career at Westgold with our summer vacation program

- Our Vacation Program commences each **November through to February**, in line with respective vacation breaks (up to 12 weeks long)
- **Paid placement** – you will come on board as a casual to gain practical work experience during your time off
- **2/1 Roster** (2 weeks on site, 1 week off site)
- For all students studying in **Mining Engineering, Geology, Metallurgy, Surveying** and **Environmental Science**

What's in it for me?

- **Industry best practice**, learning from Industry leaders
- **Corporate Orientation Day** and a **tour of our Underground Training Facility**
- **Exposure** to Underground mining
- **Variety of milling** processes in place at three plants in the region
- **Exposure to** our specialist underground division – **Westgold Mining Services**
- **Hands on, practical experience** to support ongoing tertiary education
- **Shortlisting commences in August** of each year – keep an eye out!

Undergraduates

The undergraduate position is reserved for our cohort of students to enable them to continue employment with Westgold throughout their studies. The undergraduate role will allow students to receive mentorship from company leaders but also the ability to complete ad hoc work throughout their semester (where timetables allow).

Undergraduates can expect inclusion in all of our activities, regular updates regarding graduate opportunities and to build on their experience in the industry whilst completing their studies.

What's in it for me?

- You will be invited back for our **Winter Program, scheduled in July each year**, up to 8 weeks long
- **Adhoc site and/or corporate work** throughout your university semester
- **Maintain contact** with Westgold personnel to assist you with your studies.

ABOUT US

We are a successful Western Australian ASX Listed gold producer based in the Murchison region of the Mid-West. The team has a long running history of planning and developing the mineral resources within this region.

Our overall business has two main pillars – gold operations in the Murchison region of Western Australia and a specialized wholly owned underground mining services arm Westgold Mining Services.

With a workforce of over 1000 people, we are the dominant explorer, developer, operator and gold mining company in the Murchison region. We currently operate six mines and three processing plants with a capacity of ≈4 million tonnes per annum.

Westgold typifies the world leading mining technology, ingenuity and pioneering attitude that Australia's mining industry is renowned for by uniquely being the owner operator of its mines and projects.

Our Locations

Our Ambition

We strive to leverage our gold assets and expand our Western Australian footprint to:

- create shareholder value,
- provide opportunities for our team to grow and succeed, and
- contribute to our wider communities.

Our Values

CHOOSE SAFETY

SHOW RESPECT

DELIVER VALUE

OUR GRADUATE DEVELOPMENT PROGRAM

Our GDP is a fantastic opportunity for students who are due to graduate, both mid-year and at end-of-year, looking to enter the gold industry.

What's in it for me?

- **Graduate Development Program Checklist** – tangible milestones to strive towards, in the form of a competency-based checklist
- **Length of the program** varies between disciplines, but will mostly be 2-3 years long
- **Regular reviews conducted** as you progress throughout the program
- **Bi-annual Graduate Engagement Days** – a day held for graduates to network together and to meet with Westgold and Industry leaders
- **Be a part of a growing graduate community** – keep connected to other Westgold Graduates
- **Opportunities for ongoing professional development**, learning from our industry leaders

Disciplines

- **Mining Engineering** – Underground Stream, 2.5 - 3 Year Program
- **Geology** – Underground Stream, Resource Development & Exploration Exposure, 2 Year Program
- **Metallurgy** – Gold Room Exposure, Metallurgy Laboratory & Process Control, 2 Year Program
- **Surveying** – Underground Stream, 1.5 Year Program
